No Answer	0	0%
Total respondents	41	100%

20. What was your overall impression of the event?

- * A good insight into our community & its residents. Need another follow-up.
- * A very good evening; a good mix of people; geographically would have like to see more young people
- * Good
- * Good information
- * Good Job
- * Great feedback
- * Great; informative; enlightening
- * I enjoyed it.
- * I thought there would be more time to discuss our community involvement & what we will be able to do for each other.
- * interesting
- * It was informative. Wanted to learn about asset mapping.
- * Off to a good start; looking forward to the needs session
- * Okay
- * Some parts of the process were confusing - selecting priorities, etc.; but facilitation & organization was quite good.
- * The different assets were definitely outlined well but additional assets needed were not discussed enough. Barriers; what services are available but not aware of to the Ramara Community. How the community can become more aware of the connecting services that are available.
- * Very active participants.
- * Very good start
- * Very impressed & helpful. I learned valuable information.
- * Very informative
- * Very well presented.
- * Well attended; knowledgeable attendees; well conducted
- * Well planned.
- * Worthwhile, great to see so many individuals from all across the township. Some great ideas.

21. Do you have any suggestions for improvement?

- * Could have identified assets in shorter time & give more time to discuss "needs gaps" & solutions.
- * It would have been nice to share & learn more about where people were from & where/how we can grow.
- * Keep up the good work!
- * Looking forward to gap/needs analysis.
- * Need to continue & follow-up.
- * Sheet 1 - ask for a few people to bring their 3 papers up & then ask if there are others that are different - save time.
- * Sound system for next meeting. More time for networking at future meetings.
- * The notion of five areas was not totally appropriate as so many assets fell into more than 1 category. Encourage more assets per person.
- * Too rigid to formula - why? We didn't know overall plan of day at beginning.
- * We must actively go out & get our teens involved in this process - only 2 teens at this session.
